An "Honest" Journal.

The Los Angeles Herald gives special

attention to the title. It assumes its readers

that it is a sure-enough "honest" journal,

and not run in the interest of election

gambols. It indulges in criticisms for

the benefit of the Times (without

telling it, however), to the point where

the private information of any character

is given away.

LETTERS FROM THE PEOPLE.

[This is the Times-Mirror's Public Forum,
who would stand above the rest to give
the entire world the right to be responsible
for their opinions and statements.]

Is It a Petition Please?

To the Editor of the Times—Sir:
Why is it that of two given numbers,
as, for instance, the number seven (7)
and the number one and one-third
(1 1/3), one-half the sum, plus one-half
the difference, equals the latter,
and that one-half the sum, minus
one-half the difference, equals the
former?

Morrow—Markham.

The Republicans of the State have
been gratified over the result of
the election in the Fourth and the Sixth
Congressional Districts. In the latter
Colonel Markham has overcome a Democ-
ratic majority of 1,800, and elected
by nearly 1,000, and, I believe, by
more than 1,000. In the District How, W. W. Mor-
row was elected by 4,650 over Hastings,
when the previous Democratic majority
was about 2,000. This is a change of over
6,000 votes in a single district, and is a
high compliment to the successful man.
Morrow's and Markham's campaign will
long remain as marked examples of
what energy, courage and intelligent
work will do. Both of the great
leaders possess abilities of a high order
and they will make themselves known
in Washington.

Elect by Popular Vote.

When the present close and exciting presidential contest shall have ended, it will be known whether the election of the Chief Magistrate of the Nation will again come into the front as a live and vital question. After the critical experiences of 1876 and 1884, the objections to the Electoral College system became more and more apparent. Gradually public opinion is coming to unite on the position that a direct popular election of the President is the best and just rule. Such a system would forever avert the possibility of a tie or a contest so close as to make the result depend upon the count of a few disputed districts in a single State, as in the pending case in New York.

Besides, the plan is right in itself. That the people of the Republic, acting directly, can elect their President, should be invested with the right and the power to elect their President, is a proposition the justice and expediency of which have never yet been discussed fully deserved.

The original idea in devising the scheme of an Electoral College was to preserve the equality of the States. That was when the original idea was first worked out in that regard during the last quarter of a century. The way for the Union swept away the pernicious doctrine that the Union is the mere creature—the subordinate, in a sense of the several States. Such doctrine has been found incompatible with the idea of a consolidated and powerful Nation capable of preserving its own existence and working out its true destiny.

The popular idea of to-day, except with the remnant of that ancient and once-powerful Democracy of which California and Jeff Davis is the type and representative, is that Nation should be spelled with a very big N.

We are struck with the soundness of some views on this subject expressed by the Sacramento Record-Union. It says:

"There is reason to believe that a majority of choosing the President by popular vote will stronger advocacy than ever before, and that is the main reason for the proposal to the people.

"The reason is that the proposal is based upon the analysis of which, however, we do not propose to enter at this time, in favor of bringing the Government nearer and closer to the people. Out of this grows a demand for a President who will be able to represent the people's will, the next after him, will break the back of the solid South."

The country is not yet ripe for such a move, settle whether the South is to have representation for the negro, the negro is deprived of the elective franchise, and the negro is not a member of Southern States. Let no one deceive himself into the belief that the negro question will be worked out in a short time. Two things will come about—the black voter will be disfranchised and Southern representation will be lost.

He will be assured perfect freedom of action in casting his ballot. The first proposition is unthinkable, not to be considered, and the second proposition must be attained and the menace of the country of a solid South cease.

A. W. Potts.

Mr. A. W. Potts, the defeated candidate for County Clerk, has served the people of Los Angeles county long, and left to himself, he would probably be a faithful guardian of the people's interests. While this is true, it is just as true that his office has been abused by those who did not have the interests of the people at heart. Mr. Potts' very virtues, his good nature and unassuming manner, caused him to be exposed to his enemies, and his confidence has been abused.

The Times made no fight against Mr. Potts personally, but against the methods of his office and against the party back of him. Having said this, and having frankly admitted that he was not needed in the Democratic, "Let the books be examined," could be replied with. We believe, from a business standpoint, that the Clerk's office of this great county will be safer in the hands of Charles H. Dunsmoor than in those of A. W. Potts. He is every inch a gentleman; he is competent, and is honest.

He will endeavor still more to apply his knowledge of his correct business methods and his manly and impartial treatment of all who comes in contact with him. Mr. Potts has our good wishes for his success in private life, and we believe this sentiment is the sentiment of this community.

Pivotal States.

The Northern States which went Democratic last Tuesday voted as follows at the President's election of 1880:

Republican vote. 232,164
Democratic vote. 232,322
Greenback vote. 12,492

Total vote: 467,672

Republican plurality over Democratic vote: 6,611

The contested opposition vote was 6,340 greater than the Republican vote.

New York.

Democrat vote: 1,308,945
Republican vote: 1,308,763
Total vote: 2,616,708

The vote of New York, which is now in dispute, was as follows:

New York.

Republican vote. 555,544
Democratic vote. 534,700
Greenback vote. 1,275
Prohibition vote. 1,517

Total vote: 1,109,945

Republican majority over all: 17,743

It is believed the total vote of New York when counted out will be found to have reached one million and a half.

An alleged telegram to our evening paper, reports that Grover Cleveland (who is not yet elected President) has already, with extraordinary previous news, offered to the Turkish portfolio to Henry Ward Beecher. A waiting country demands to know whether the offer includes a home and other emoluments.

Henry Ward Beecher must have been offered the Ministryship to Turkey on the principle of putting him where he could do the most good.

Hon. Henry T. Hazard.

The three Assembly districts of Los Angeles county each have chosen a strong representative this year. Col. Bancroft of the 7th and Col. Edwards of the 7th are both men of high standing, and are peculiarly well qualified to represent their sections in the Legislature. Col. Edwards made a most gallant fight, having overcome a Democratic majority of 1,000. The Herald reported that the result was a Fusion victory. This result is reached by the loss of two seats in the Legislature, and the Legislature varies somewhat in claims, but there will be a Fusion majority in both Senate and House.

Associated Press Dispatches to The Times.

NEW YORK, Nov. 8.—The Commercial National Committee, led by Mr. Blaine, has called a meeting at Mr. Blaine's residence in New York to consider the official vote of the State of New York. The official committee may meet at the same time to consider a solid and enthusiastic delegation from Southern California, with "Blaine for Speaker" painted on their banners. Every county in Southern California has given a Republican majority to Blaine, for Markham, and for their legislative ticket, while Los Angeles county has at one time placed herself in the van as the banner Republican county of this action. Let Hazard be Speaker.

A Blunder.

In his speech at the Democratic plenary meeting last night, Mr. George S. Patton, who appears to be an amateur young man, with a superabundance of bad political animus, indulged in the following foolish, vicious and incendiary language:

"Cleveland and Hendricks have been elected by five millions of the people of the United States, and will give them a state, then we will make for Blaine."

Mr. Patton ought to know that this sort of language is calculated to place him in a difficult position.

It is impossible to conceive of the author of it, who is trying to play the played-on role of a free-state—a very silly role indeed, for any man who has been made a slave for a party in the election is the only party for republican institutions.

The Republicans him to the speaker's chair. It is not unlikely that our friends will be present to witness the result of this election, a solid and enthusiastic delegation from Southern California, with "Blaine for Speaker" painted on their banners. Let Hazard be Speaker.

A Blunder.

In his speech at the Democratic plenary meeting last night, Mr. George S. Patton, who appears to be an amateur young man, with a superabundance of bad political animus, indulged in the following foolish, vicious and incendiary language:

"Cleveland and Hendricks have been elected by five millions of the people of the United States, and will give them a state, then we will make for Blaine."

Mr. Patton ought to know that this sort of language is calculated to place him in a difficult position.

It is impossible to conceive of the author of it, who is trying to play the played-on role of a free-state—a very silly role indeed, for any man who has been made a slave for a party in the election is the only party for republican institutions.

NEW YORK, Nov. 8.—The Commercial National Committee, led by Mr. Blaine, has called a meeting at Mr. Blaine's residence in New York to consider the official vote of the State of New York. The official committee may meet at the same time to consider a solid and enthusiastic delegation from Southern California, with "Blaine for Speaker" painted on their banners. Every county in Southern California has given a Republican majority to Blaine, for Markham, and for their legislative ticket, while Los Angeles county has at one time placed herself in the van as the banner Republican county of this action. Let Hazard be Speaker.

ERGOTISM.

The Disease Now Afflicting Kansas Cattle.

EXPERT'S VIEWS ON THE DISEASE.

Treat H—Report of the Bureau of Animal Industry.

ANNUAL REPORTS TO THE HOUSE.

WASHINGTON, Nov. 12.—Dr. E. R. St. John, Chief of the Bureau of Animal Industry, has submitted to the Committee on Agriculture a voluminous report on the contagious diseases of animals and investigations made by the Veterinary Division. Considerable space is given to a detailed history of the outbreak among the cattle of Kansas. He reaches the conclusion that the fungs known to experts, due to the movement and prevention of that disease, are to be attributed to a lack of knowledge of the animal's natural enemies. The report is to be submitted to the House on the 15th of November.

The press conferences have been suspended. Two deaths are reported at the 7th.

Nov. 13.—Eighteen more cattle have died at 6 o'clock yesterday, making the total number of deaths from ergotism in the city 18. One fresh case of the disease was reported to-day.

MONUMENTAL EVIDENCE. Royal Baking Powder Unequalled for Purity and Wholesomeness.

lowing certificates from well-known chemists and scientists have
been issued as evidence as was ever given in behalf of any article

Government Chemists' Reports.
Edward G. Love, the Government Chemist, says:
I have tested a package of Royal Baking Powder, which I purchased
in market, and find it composed of pure and wholesome ingre-
dients, a cream of tartar powder of a high degree of purity, and does
not contain either alum or phosphates or other injurious substances.

"E. G. LOVE, Ph.D."

A. Mott, Government Chemist, says:
A scientific fact, that Royal Baking Powder is absolutely pure.

"H. A. MOTT, Ph.D."

McMurtrie, Professor of Chemistry, Illinois Industrial University,
Government Chemist, Department of Agriculture, says:
Royal Baking powder has been used in my family for many years,
as a practical test, as well as the chemical tests to which I have sub-
mitted it, it is perfectly healthy, of uniform excellence, and
any deleterious substance.

"W. M. MCMURTRIE, E. M., Ph.D."

E. Meek, Professor of Chemistry, Kentucky State College,
Government Chemist, Department of Agriculture, says:
I have very carefully examined a package of Royal Baking Powder,
and to be a cream of tartar powder of high strength, not containing
alum, alum, or other deleterious ingredients, everything being pure
and wholesome.

"ALBERT E. MEEK."

Henry Morton, President of Stevens' Institute of Technology, says:
I have examined a package of Royal Baking Powder, purchased
by me, and find it entirely free from alum, terra alba, or
any deleterious substance.

"HENRY MORTON."

California's Great Chemists.

W. T. Rosing, Professor of Chemistry, State University, Cal-
if. Prof. W. T. Weisheit, Professor of Chemistry, California College
of Pharmacy, say:

In an analysis we find the Royal Baking Powder a pure article.

"W. T. ROSING,"

Heimann, Analytical Chemist, Los Angeles, says:
And, from chemical analysis, that the Royal Baking Powder is
the compound on the most scientific principles, and the
is perfectly pure and wholesome.

"C. F. HEIMANN."

Chicago's Great Chemists.

Walter S. Haines, Professor of Chemistry, Rush Medical College,
says:

I have recently examined a package of Royal Baking Powder, pur-
chased in the open market, and have found it entirely free from
any injurious substance of all kinds. I have several times
examined the Royal Powder, and have always found it, just as in my
examination, skillfully compounded and composed of the purest

"WALTER S. HAINES, M.D."

H. D. Garrison, Professor of Materia Medica and Toxicology,
College of Pharmacy, says:

And Royal Baking Powder is to be composed of pure and wholesome
in correct proportion. It contains no injurious substance. The
cream of tartar employed in this powder is worthy of special
note, since it does not contain the tartar of lime usually present
in powders in which cream of tartar of inferior quality is used.

"H. D. GARRISON, M.D."

C. B. Gibbs, Chemist, College Physicians and Surgeons, Chi-
cago, says:

Royal Baking Powder so different from many of the baking powders,
and that I thought you would be pleased to know it, and might
ask for the certificate.

"C. B. GIBBS."

J. H. Wright and Dr. Albert Merrill, Analytical Chemists, lab-
oratory of Wright & Merrill, St. Louis, say:

"J. H. WRIGHT, M.D."
"ALBERT MERRILL, M.D."

AWAITING THE VERDICT.

The Excitement in Los Angeles at
Fever Heat.

PREMATURE DEMOCRATIC JOLLIFICATION.

Events Around the Times Office Last Night—
A Thriving Business Done by the
Telegraph Men.

Sunday, November 9.

The excitement in the city yesterday
over the election did not manifest itself
in such lengthy demonstrations of
noise as on previous occasions, but was
none the less intense. The dazed
bulletin boards were hardly matched
all day. In obedience to the command
of their National Committee the Demo-
crats fired a salute of one hundred guns
at noon. The people had been impressed
so much by the political excitement of
the time that they had been moderately successful in collecting the produce of our county,
but the result was a fair showing.

"Will you please stir the pot up
on this most important subject?" If any
person, having anything worth of
mention, had come to the office, he would
have been told of his customary fire-eating
operations, saying something about rivers of
gore in the mouths of the rebels, and
that the world was to be saved.

"Yours, respectfully,

CASAS W. HELL,
Collector of Exhibits for Los Angeles
county.

LETTERS FROM THE PEOPLE.

(This is the Texas-Mexico's Public Forum,

the other side of the question, and be responded
for their opinions and statements.)

The World's Exposition at New Or-
leans.

To the Editor of the "Times"—Sir:

Will you kindly announce through your
columns that, in addition to the liberal
premiums already offered by the Exposi-
tion, a new premium has been offered,
\$100, #400, gold mace, for best
habit of citrus fruits, not open
to the world.

The people have been more impressed
by the desire to do good than by the time
of keeping up courage, intemperance.

Yours, respectfully,

CASAS W. HELL,

Collector of Exhibits for Los Angeles
county.

Bees.

To the Editor of the "Times"—Sir:

It is bad enough to rob the bees of
their honey, but it is almost certainly
fatal to the colony to do so now, or at
any time between this and May. An
attempt to take the surplus honey at
this season excites the colony, while
little or no food is to be had outside,
desperation. They all fly to the rese-
voir of the bee-keepers, and the
people who endeavor to drive them
out into the open fields are to be
blamed for all one would obtain.

This is really unhealthy, as it is made
beyond one or two individuals, but
when it is done by the immense
numbers, as was done by the telegraph
men, there is a real danger.

The alarm of fire Wednesday night
was caused by the Placentia school
boys, who were out to see what
was in the reservoir of Mr. Gray.
The flames were extinguished before
any damage was done.

Some of the citizens of the Swamp
have gathered, but for the larger num-
ber have not commenced harvesting the
crop, as they have been engaged in
other men have already en-
gaged to do the work. Good reports
continue to be received. As to the
large part of good quality. The
gloomy outlook for crops of any kind
has been dispelled by the heavy
overflows and heavy rains, has been
happily dispelled, and the farmers, he
is to be hoped, will have a good
crop.

The project of building a dam
at伯威克 against possible future over-
flows, along a portion of the south-
ern boundary of the valley, has been
abandoned, on account of lack of
the necessary funds. If another flood
comes, it will be hard to prevent
the damage.

Oceanside, C. W. Markham was
elected Secretary. Del. Ward, re-
elected. G. F. Powers, re-appointed
Treasurer. Frank M. Jones, re-
elected. Henry, Zane, re-elected. A sum
of fifty cents per share was levied

Our Boys and Girls.

The Boy and the Wolf.
Once there was a boy lad,
And full of mischief was he;
The wolf came to him,
But nothing could he do.

If I had sent him off for the cows
He would have been home by now,
And later on still after dark,
The other cow bell's come.

Early with their king, clang, clang,
Down the village road they went,
The other cow bell's come.

On necks of brown-eyed cattle
Hoof beats were driving, when
The boy said, "I'm not afraid,
Struck out till night had come."

If he ached his feet and sin,
He would play the naughty prout;

Till his father grew discouraged,
And said to his head,

"Jerk him, jerk him, jerk him,
Jerk him never will he heed."

I will send him to the pasture,
On the hillside's rocky sites,

And the gentle pony come,

He shall lead my stock of sheep.

Then, the bad boy said, was only,
The boy who led the sheep.

With the sheep'd drop beside him,
He could rest in the shade through

And there upon the green pastures
Lie the sheep of a woe.

He said to his father, "I am bound,
To the sheep I'll go and tend."

Down the hillside's safety running,
She reached the village street,

As the boy ran with a foot,
He ran with a foot."

On the hill the flock was feeding;
And the boy ran fast to get home.

With hasty feet he ran fast,
With hasty feet he ran fast.

On the hill the flock was feeding;
And the boy ran fast to get home.

Well, well, O come and help me!"
And the kindly people came,

And the gentle pony come,

And the farmer from his grain;

And the blacksmith set his hammer,

And the shepherd had his hand,

And the stave was broken away;

One running fast to get home.

On the hill the flock was feeding;
And the boy ran fast to get home.

Well, well, O come and help me!"
